Software Engineer Internship

Sweet Mustard (Cronos)

2023 (6 months)

Study Abroad with Erasmus+

IBA Denmark

About

Hey there! I'm Guust Taillieu, a 21-year-old full-stack developer on a mission to conquer the digital world while studying Cyber Security at Howest Bruges. I thrive on crafting user-friendly and functional software, juggling both front-end and back-end development like a pro! When I'm not buried in code, you can find me bouldering my way to new heights, taking leisurely walks, or diving into personal projects.

Work experience

student
2021 - Present
Software Engineer
