Erasmus - Study Abroad
IBA Denmark

About

Hey there! I'm Guust Taillieu, a 23-year-old full-stack developer on a mission to conquer the digital world-while making sure I actually touch some grass now and then. I thrive on crafting user-friendly and functional software, juggling front-end and back-end development like a pro! When I'm not buried in code, you can find me bouldering my way to new heights, exploring nature, or building personal projects.

Work experience

student
2021 - 2025
Software Engineer
Storything

student
2023 - 2024
